

Voyager Music Users Group (VMUG)
Meeting Agenda
Saturday, February 19, 2005, 12:30–2pm, Vancouver

Endeavor is not sending a representative this year, but will send product feature update handouts and brochures. Endeavor representative Michele Arms is reviewing our formal enhancement requests and will respond before our meeting. *Agenda will be adjusted as needed.*

There are no refreshments this year, so pack a snack!

1. Introductions and thanks; agenda review; scope room (10 minutes)
2. Presentation/discussion: public and staff user guides (25 minutes, including questions)
Presenters: David Gilbert (UCLA) & Mickey Koth (Yale)
3. Review of VMUG's current activities (15 minutes)
 - New Web links
 - Voyager music libraries and catalogs (thanks to Julia Graepel, U. Louisville)
 - Links to search guides (thanks to contributors and JeannetteThompson, Tulane)
 - Info about FRBR (including J. Bowen's presentations, Eastman)
 - Status of enhancement requests
 - Eight submitted May 2004 (many thanks to J. Thompson and Kerri Scannell, U. KY, for heroic efforts). In committee; Michele Arms sends comments.
 - Voyager 5.x and/or FRBR *TBA*
4. Open discussion (10 minutes)
 - Questions, comments, info sharing. Comments from any EnCompass library?
 - Any new enhancement requests or VMUG activities?
5. Planning for upcoming year, if not already covered (20 minutes)
 - Activities? Strategies for prioritizing, next steps, and individuals to assist
 - Next year's program
 - Affirm or change leadership
6. Adjourn, unless burning discussion continues (until 2pm).

TOTAL TIME: 80 minutes (90 minute session: assume a late start and extra questions)

Facilitator: Tracey Rudnick, University of Connecticut (tracey.rudnick@uconn.edu)
Notetaker: Jeannette Thompson, Tulane University (jeannett@tulane.edu)

(over)

2004 Formal Enhancement Requests for Voyager
Submitted May 2004
(as per VMUG's decisions February 2004)

Descriptions and justifications are available at
http://www.lib.uconn.edu/music/VMUG/VMUG_enhancements_2004.SUBMITTED.pdf.

The original list of questions is at
<http://www.lib.uconn.edu/music/VMUG/index.html#enhancements>.

Please BRING YOUR OWN COPIES if you wish to discuss them.

1. Allow individual Cat or Circ users to set default for OR or AND in Builder.
2. Make the Simple Limits drop-down menu available on the Builder search page.
3. Put Limits buttons on the search results screens for faster post-limits.
4. Create an intuitive (alphabetical) jump-bar for the Name/Title Headings search.
5. Offer the Name/Title Heading search as an option for redirected searches.
6. OPAC “as a phrase” and future proximity searches should cross subfields.
7. Add proximity operators for more precise retrieval of terms near one another.
8. Create a keyword search limited to paired phrases or headings, e.g., name/titles.
